Important information – GHA Bus Services in Cheshire East

It has come to our attention that GHA Coaches are experiencing difficulty in providing their normal services in Cheshire East as from the morning of Thursday July 14.

This could have a significant impact on schools and other commercial and social transport operations normally provided by GHA Coaches.

Cheshire East Council is currently working to provide alternative arrangements and we are giving urgent priority to school pupils, the elderly and other residents who routinely rely on the services provided by this particular company.

We wish to assure our residents and schools that we are doing all we can, as a local authority, to mitigate the impact of the sudden loss of services by providing alternative transport where possible. Unfortunately we may not be able to cover all services affected.

We would ask our residents to bear with us during this difficult period.

Please monitor the Cheshire East Council website and follow us on Twitter @cheshireeast for further updates.
